The feds have stated that the SF Examiner of San Francisco, CA is under investigation. It's an unconstitutional investigation that neglects their 1st amendment, freedom of press. Their biased opinion is for personal gain, not for their respected agency, and not the American people. These federal agents are corrupt rapists, pedophiles, whores, murderers, hackers, and are identified as terrorists. They're counter culture anti-government terrorists to be exact. They claim to be FBI, CIA, NSA, DEA, ATF, and US Marshals. They have attempted manslaughter on the two most recent Presidents of The United States of America, and remain a threat until detained. The FBI office of San Francisco was reported for corruption in 2015, and 2016. These federal agents checked into the Spear Towers Downtown San Francisco February 20th, 2015 as CIA. The building was being remodeled at the time with only one entrance. Over thirty federal agents have been seen and contacted since their first attempt of manslaughter on my life. Thirty is just an easy number for now.

You're going to hear it first. It's like that. Director James Comey needs to be removed from his position as Director of the FBI. He is a threat to the sovereignty of The United States of America and a threat to the lives of the former President Barack Obama and Donald Trump, The President of The United States of America.

The sign gave back when the NSA was hacking foreign national's computers overseas. European nations, example given Spain, had an uproar stating that their citizen's rights were violated. Big no no in foreign operations concerning allies of the United Nations. United States media reported the story, freedom of press, and Director James Comey neglected and attacked the first amendment of The United States of America. Let's be honest, because of how crucial the FBI is a direct resource to the public, I can tell you with their own actions that they're in a state of unrest across the country. Paranoid Russian androids if ya wanna call them, Comeys works too (pun intended). The point is National Security is dead, San Francisco is an epicenter even after recognizing it's unique, with the help of a few CIA. Lapdogs! All of them!

I am a United States citizen/veteran whoms 1st, 4th, 5th, 9th, and 13th amendments are being attacked and violated. I am a witness to treason committed by federal agents of California (CIA started the breach) and SFPD. They attempted manslaughter on Barack Obama, have threatened the dollar of the public (billionaires, politicians, celebrities, capitalism, foreign nationals ) by targeting a single restaurant, threatened the lives of those involved including The Obama Family, Hilary Clinton, Al Gore, and Jony Ive. These federal agents have openly threatened the life of Vladimir Putin, The Kremlin of the Federation of Russia. They know. They threatened a revolution of their government by use of "MJames ComeyK" (I know, they're fucking idiots) and civil war. They have threatened the People of China with slavery by use of the bug they illegally bugged me with. They know.

I wanna say it was February 19th at Hawaii West in SF. The way they pass these things out it could have been earlier. A federal agent bugged me with a substance without stating a cost or identity of the substance. He was clearly bugged by body language and taking orders. (JUST TAKING IT!) American history everybody! We have a slave! Things continued. Same feds checked into the Spear Towers February 20th, 2015 at One Market Plaza, SF. They then started to sexually abuse me in my San Francisco home. They stated a hired hand to kill me. They raped me using food aboard travel accomodations. Attacked me on several flights. Funny thing about that radio and ambulances... Continued to rape me. Shat on a modern education, and continued to misuse this technology.

Good thing I made a deal with the FBI! I'm not dropping it. I've talked with Secret Service (they get it), and have been directing the lap dogs in that direction just to hear the bull shit. The feds don't utilize radio silence and continue their attacks 24/7. Gang-Stoppable! I got these bitches on shifts. National Security concerning the internet of San Francisco, CA is fucking trash. That is the only place that incompetence shows because they're unethical pieces of shit. Trash City Trash. SFPD has stated they don't care about terrorism or the FBI and in conjuction with feds, created aL-qa'ida attacks on the city of San Francisco, CA. We have pedophiles and the children have not been spared.

I'm not the only slave. It's to my understanding a emg radio being used as a speech assistant device and a neurostimulator. They are raping me. They don't know what the fuck they're doing. I have witnesses.

-Alexander David Hooper
